

MY VOW TO YOU

Glowing Fiancé to Beaming Bride

I specialize in a clean elegance that highlights your natural beauty and personal style; whether it be the divine Modern Sophisticate, the ever-favorite Timeless Classic, or the marvelous Retro- Chic look, I promise that you will look and feel stunning on your wedding day.

GET TO KNOW THE PROCESS

Consultation & Run-Through

These two steps are highly recommended for all brides as it allows the opportunity for an in-depth review to determine your desired look. During the Consultation we consider such details as: day or evening wedding, traditional versus contemporary, formal or informal, wedding colors and bridesmaid dress colors, hairstyle, location, accessories etc.

The makeup Run-Through is a significant asset to you, as it allows you to know what to expect on your big day. It is an occasion where I create a custom blend foundation specifically for your skin tone and create your makeup look entirely as it will be on your wedding day. This process allows us ample time for modification and perfection; it not only promotes your confidence and calmness but also helps things run more smoothly.

Why waste a great look? We can plan your Run-Through for the day of your bridal shower, bachelorette or engagement party (strictly based on joint availability).

Makeup

The makeup application process is an incredibly relaxing and indulgent transformation from eager fiancé to beaming bride. This is where the visual results speak for themselves and the bride feels her most beautiful.

Pampering

For many weddings, I have been asked to stay throughout pictures and/or the ceremony. I absolutely love doing this because it gives me an opportunity to pamper you “Celebrity-Style” for the most documented moments of your big day. This allows me to spoil you sweetly with touch-ups and attention; making you feel like nothing less than a gleaming celebrity.
